### **JOHANSON NOW ITAR REGISTERED**

Boonton, NJ, October 19, 2009 – Johanson Manufacturing Corp., a leading manufacturer of precision passive components for telecommunications, broadcast, wireless, avionics, defense and medical industries, has announced that United States Department of State Office of Defense Trade Controls Compliance has designated Johanson to be an ITAR registered manufacturer and exporter, under a registration code of M25487.

By virtue of this registration, Johanson commits itself to compliance with the Arms Control Act (AECA) and the International Traffic in Arms Regulations (ITAR Part 122). It is also a precondition for obtaining export licensing and other approvals from the Directorate of Defense Trade Controls (DDTC).

“As a long time supplier to many companies in defense and military sectors, we embrace our government’s security safeguards as embodied in ITAR regulations and,” says Rocco Melchione, Johanson’s President. “We strongly believe in working with our customers in these sectors to protect the use of sensitive IP and products.”

#### **ABOUT JOHANSON:**

An established brand known for its commitments to quality and customer satisfaction in its market segment, Johanson Manufacturing Corporation designs, manufactures, and sells precision components for the wireless communications, satellite communications, medical, avionics and defense electronics markets with ISO-9001 facilities located in New Jersey and the Dominican Republic.
